INTRODUCTION

I have a strong foundation in modern development technologies and am enthusiastic about beginning my career in software development.. I am excited to put my coding talents and enthusiasm for designing user-friendly, responsive websites and interfaces to good use. My dedication to staying current on industry trends, as well as my ability to swiftly adapt to new technologies, make me a devoted and enthusiastic individual eager to bring unique solutions to projects.

EDUCATION

Trident Academy of Technology   **09 2022 – 07 2024**

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, MySQL, Mongo DB, HTML, CSS, Core Java
Technologies/Frameworks: ReactJS, NodeJS, ExpressJS, Tailwind CSS, Bootstrap
Developer Tools: VS Code, GitHub

PROJECTS

Personal Portfolio ⎋ | HTML, CSS, JavaScript
- A Personal Portfolio website with a clean, user-friendly design with dynamic navigation and interactive features. Includes multimedia and a contact forum.
- Live site here

Course Selling App ⎋ | React, JavaScript, Node.js, Mongo DB, Express, etc
- Developed a full-featured online course selling platform enabling users to browse, purchase, and access educational courses. Implemented user authentication, secure payment gateway integration (e.g., Stripe/PayPal), admin dashboards for course and user management. The app supports role-based access control for students and instructors, course progress tracking, and dynamic content delivery. Designed a responsive and intuitive UI for seamless user experience across devices.
- Live site here

ToDoList Webapp ⎋ | React Js, JavaScript, Node Js, Mongo DB, Express etc
- Built a task management web application that allows users to create, update, complete, and delete tasks with real-time synchronization. The app supports user authentication, persistent storage of tasks, and a clean, responsive UI. Designed to help users organize daily activities efficiently with features like due dates, task categories, and filter/sort options.
- Live site here

INTERNSHIP

JavaC Enterpriser Pvt. Ltd. ⎋   **01 2024 – 04 2024**
Software Developer Intern   *Bhubaneswar, Odisha*
*

CERTIFICATIONS

- Javascript Basics to Advanced Step by Step.

- Achieved Gold Badge in Java at Hackerrank with 5-star proficiency.

- Certified by Hackerrank in Java and SQL.

- Certified by NPTEL in Cloud Computing.
